

## **Company Profile:**

HeirPros.com is a premier heir search firm specializing in locating missing or unknown heirs for estates, probate cases, and legal matters. With a team of expert genealogists and a dedicated staff, HeirPros.com provides reliable, thorough services to attorneys, estate administrators, and executors worldwide.

## **Services Offered:**

- Probate & Estate Heir Research
- Family Tree Construction
- Missing Heir Location
- Estate Administration Support
- Genealogical Research for Legal Cases

At HeirPros.com, our mission is to ensure that no rightful heir goes unidentified. We leverage cutting-edge research tools alongside traditional genealogical methods to quickly and accurately locate and verify heirs. Our work helps resolve even the most complex probate cases by delivering conclusive, detailed family histories, always adhering to legal standards and ethical practices.

## **Our Global Genealogy Research Team:**

HeirPros.com boasts a team of 20+ genealogists based in the United States, along with an additional 20+ researchers located in countries including Canada, Ireland, Germany, Italy, and many more.

Our talented professionals range from former CIA agents and DNA experts assisting law enforcement with case resolutions to researchers holding doctoral degrees. This diverse team ensures that every case is handled with precision and expertise, whether it's solving a legal case through DNA analysis or conducting deep genealogical research.

## **Research Objective:**

To determine next-of-kin/heirs at large of Angeline

## **Background:**

Angeline [REDACTED] inherited a ¼ share in a real estate holding at the death of her husband, Richard [REDACTED]. She died without children and her interest passed to her next of kin.

## **Summary of Findings:**

A detailed search has uncovered a total of 14 living next-of-kin for Angeline [REDACTED]. A family group sheet for each sibling is included as well as register and descendency charts showing how everyone is related. An invite to the full family tree is also provided.

## **Details of Research and Findings:**

A thorough search was conducted using multiple commercial databases. State and Federal government databases were used as well as cemetery and obituary listings. All sources can be reviewed as listed in the family tree.

## **Conclusion:**

To date, Angeline has one surviving sibling, Marcella [REDACTED]. In addition, there are 20 - 2<sup>nd</sup> generation siblings, (the children of Angeline's siblings) seven of which are deceased. These 7 have 13 descendants. These numbers do not include Joey and Amanda as we discussed. Also, since I can find no death record or obituary for their father, John [REDACTED], the assumption is that he is still alive.

## **Researcher Profile:**

A dedicated genealogist with over 45 years of experience in conducting research and uncovering family histories. Posses in-depth knowledge of genealogical methodologies, data analysis, and research techniques. Proficient in using online databases, public records, and various other historical documents to find detailed information to accurately piece together family trees. Highly organized and detail oriented with excellent research and analytical skills.

## **EDUCATION**

Kaplan University, bachelor's degree in health science, Magna cum Laude  
Tidewater Community College, associate's degree in social science, Magna cum Laude
